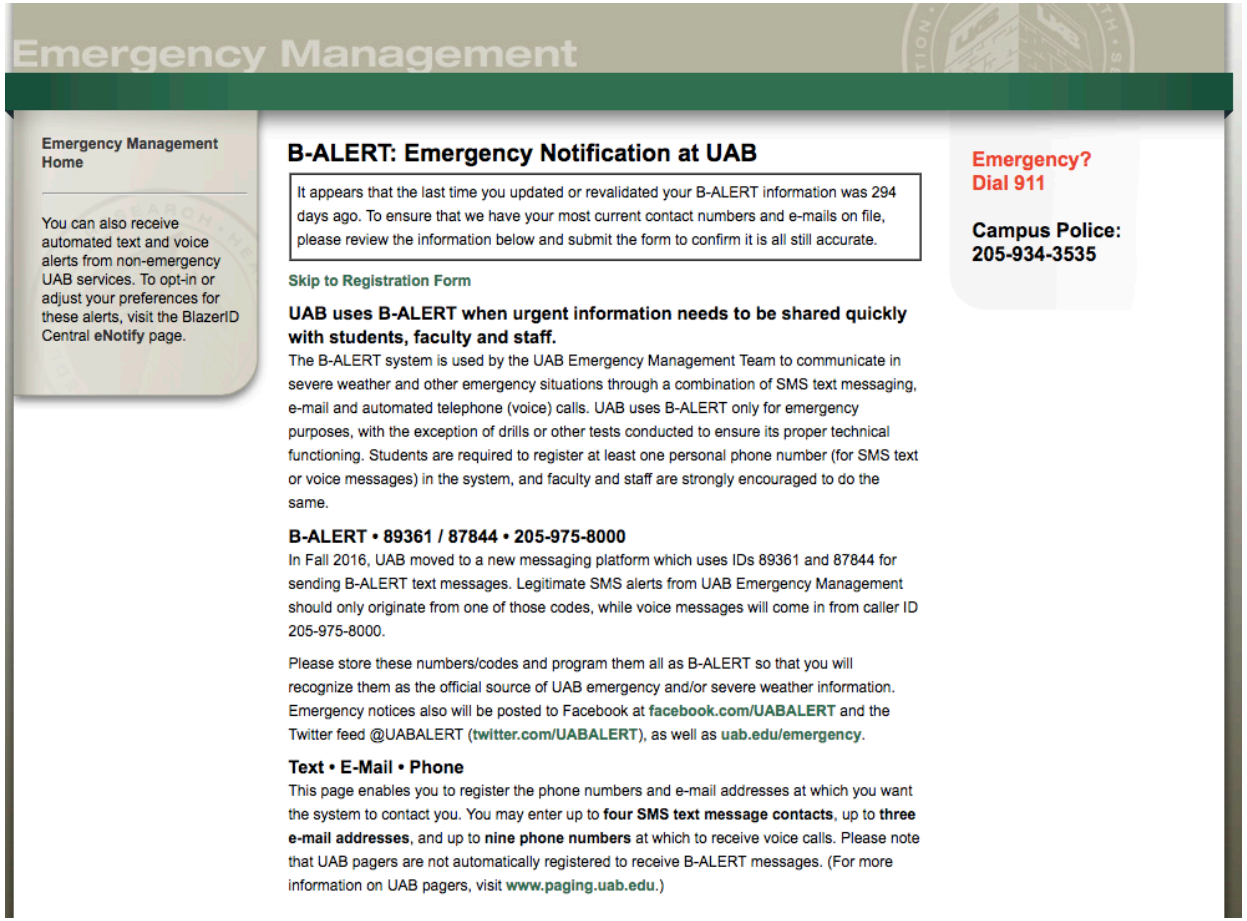
B-ALERT: Emergency Notification at UAB

B-ALERT: Emergency Notification at UAB



Emergency Management

Emergency Management Home

You can also receive automated text and voice alerts from non-emergency UAB services. To opt-in or adjust your preferences for these alerts, visit the BlazerID Central **eNotify** page.

B-ALERT: Emergency Notification at UAB

It appears that the last time you updated or revalidated your B-ALERT information was 294 days ago. To ensure that we have your most current contact numbers and e-mails on file, please review the information below and submit the form to confirm it is all still accurate.

Skip to Registration Form

UAB uses B-ALERT when urgent information needs to be shared quickly with students, faculty and staff.

The B-ALERT system is used by the UAB Emergency Management Team to communicate in severe weather and other emergency situations through a combination of SMS text messaging, e-mail and automated telephone (voice) calls. UAB uses B-ALERT only for emergency purposes, with the exception of drills or other tests conducted to ensure its proper technical functioning. Students are required to register at least one personal phone number (for SMS text or voice messages) in the system, and faculty and staff are strongly encouraged to do the same.

B-ALERT • 89361 / 87844 • 205-975-8000

In Fall 2016, UAB moved to a new messaging platform which uses IDs 89361 and 87844 for sending B-ALERT text messages. Legitimate SMS alerts from UAB Emergency Management should only originate from one of those codes, while voice messages will come in from caller ID 205-975-8000.

Please store these numbers/codes and program them all as B-ALERT so that you will recognize them as the official source of UAB emergency and/or severe weather information. Emergency notices also will be posted to Facebook at facebook.com/UABALERT and the Twitter feed @UABALERT (twitter.com/UABALERT), as well as uab.edu/emergency.

Text • E-Mail • Phone

This page enables you to register the phone numbers and e-mail addresses at which you want the system to contact you. You may enter up to **four SMS text message contacts**, up to **three e-mail addresses**, and up to **nine phone numbers** at which to receive voice calls. Please note that UAB pagers are not automatically registered to receive B-ALERT messages. (For more information on UAB pagers, visit www.paging.uab.edu.)

Emergency? Dial 911

Campus Police: 205-934-3535

SMS TEXT MESSAGING

List up to four numbers of mobile devices to receive B-ALERT SMS text messages. Please note that standard charges will apply.

1.
2.
3.
4.

E-MAIL MESSAGING

List up to three e-mail addresses to receive B-ALERT e-mails. Your UAB e-mail address **yulijia@uab.edu** and its forwarding mailbox **yulijia@mail.ad.uab.edu** are automatically registered with the service; do not enter them.

1.
2.
3.

AUTOMATED VOICE CALL MESSAGING

List up to nine telephone numbers to receive B-ALERT automated voice calls.

UAB Emergency Management

UAB Emergency Management is dedicated to help protect and educate the UAB Campus and community about emergency situations and severe weather. UAB's primary concern during any emergency or severe weather situation is the safety of its students, faculty and staff. The information provided on this site is designed to provide guidance to all members of the UAB community during such situations and to help properly prepare for future needs. The UAB Emergency Management team uses the NIMS, **National Incident Management System**, to help identify concepts and principles that answer how to manage emergencies from preparedness to recovery.

During any actual emergency or severe weather situation, this site - **uab.edu/emergency** - will be the official source of UAB information. In addition, the UAB Emergency Management Team will use B-ALERT, the university's emergency notification system, to communicate through voice calls, SMS text messages and e-mails to the entire campus all at the same time. B-ALERT also integrates with Facebook and Twitter. Emergency response plans can be accessed through the UAB app. The app can be downloaded from **uab.edu/app**.

Register for B-Alert.

Download Rave Guardian

Improve Your Safety

Rave Guardian is one of the best ways to improve your personal safety and protect your friends by building your own private safety network. This free app provides instant communications with friends, family, co-workers, UAB Police, and even 911 in the event of an emergency.

Download Rave Guardian for Free

Download on the App Store

GET IT ON Google play

After downloading the app, follow the instructions and register using your **UAB email address only**.

Virtual Private Network (VPN)

A Virtual Private Network is a combination of tunneling, encryption, authentication, and access control technologies and services used to carry traffic over the Internet and the UAB campus network. VPN traffic can use any combination of access technologies including T1, frame relay, ISDN, ADSL, cable, ATM or simple dial access.

VPN's are used to connect remote users to UAB campus resources that are restricted for reasons of security and/or licensing constraints. In other words, VPN's make it possible for you to use any Internet Service Provider and any of the remote access technologies that they provide to reach networked resources on campus that are not open to the general public. In a remote access VPN, a user accesses a service provider's point of presence, establishes a tunnel back to the UAB campus over that provider's network or the Internet, and authenticates the user to gain access to the UAB network. You authenticate using your BlazerID and password in order to be authorized as a UAB network user.

Note for Health Systems Users: You may be required to utilize VPN software provided especially for use with the Health Systems Network. Please contact the HSIS Help Desk at telephone **934-8888**, or e-mail them at **srquest@uabmc.edu**.

For a more secure connection, UAB offers Two-Factor authentication, available for Department use only.

Preferred Client, Administrator rights required.

AnyConnect Windows VPN Software for 32 and 64 bit systems.

Instructions for AnyConnect Windows Installation.

UABSecureAccess profile. Create a folder "Profiles" under folder "Cisco Anyconnect Client". Place in folder 'Profiles'

AnyConnect Mac OSX VPN software.

Users please note: Select **"UABSecure Access"** from dropdown unless otherwise instructed

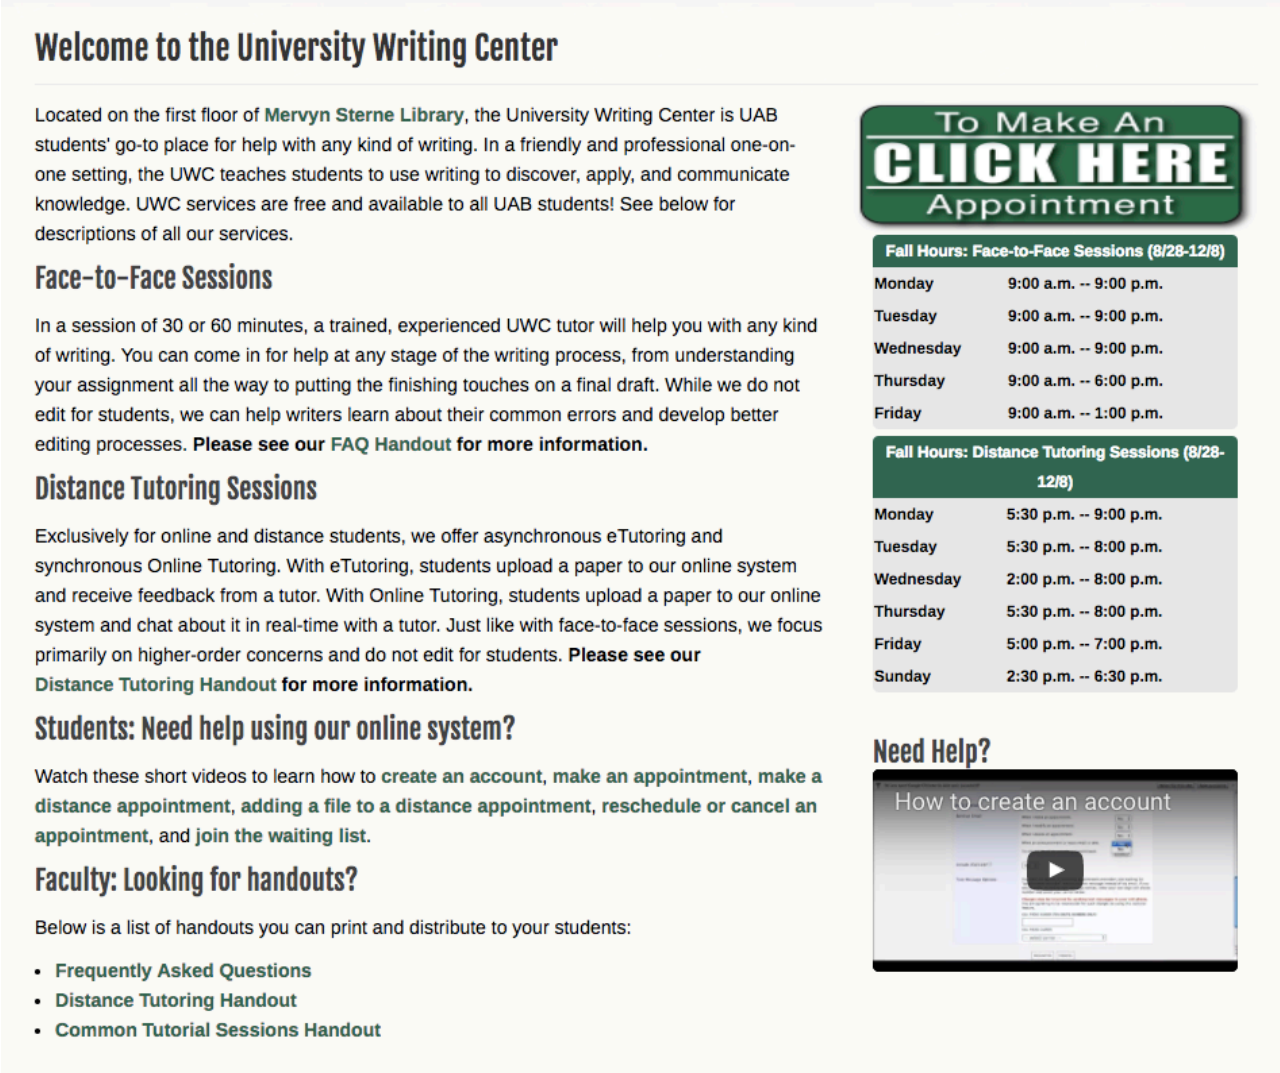
UAB writing center

- https://www.uab.edu/writingcenter/
  - 免费写作指导（不提供修改服务）



Welcome to the University Writing Center

Located on the first floor of **Mervyn Sterne Library**, the University Writing Center is UAB students' go-to place for help with any kind of writing. In a friendly and professional one-on-one setting, the UWC teaches students to use writing to discover, apply, and communicate knowledge. UWC services are free and available to all UAB students! See below for descriptions of all our services.

Face-to-Face Sessions

In a session of 30 or 60 minutes, a trained, experienced UWC tutor will help you with any kind of writing. You can come in for help at any stage of the writing process, from understanding your assignment all the way to putting the finishing touches on a final draft. While we do not edit for students, we can help writers learn about their common errors and develop better editing processes. **Please see our FAQ Handout for more information.**

Distance Tutoring Sessions

Exclusively for online and distance students, we offer asynchronous eTutoring and synchronous Online Tutoring. With eTutoring, students upload a paper to our online system and receive feedback from a tutor. With Online Tutoring, students upload a paper to our online system and chat about it in real-time with a tutor. Just like with face-to-face sessions, we focus primarily on higher-order concerns and do not edit for students. **Please see our Distance Tutoring Handout for more information.**

Students: Need help using our online system?

Watch these short videos to learn how to **create an account, make an appointment, make a distance appointment, adding a file to a distance appointment, reschedule or cancel an appointment**, and **join the waiting list**.

Faculty: Looking for handouts?

Below is a list of handouts you can print and distribute to your students:
